

# Hello

Include images from "images" folder

# Want to write HTML?

yes, yes you can :)

# Stacked slides

We call them *chapters*. Yep, like in a book.

Go down

# Stacked slides

This is second stacked slide with some JavaScript code

```
function (who = "world") {  
  console.log(`Hello ${who}!`);  
}
```

Latest version of [Highlight.js](#)

ES2015 initial support! \o/

# Stacked slides

And the last one.

Go right to continue the journey.

# Speaker notes

Hit s on your keyboard to display speaker notes

# Slide properties

Look at this shiny hot-pink background!

It has been added on this slide with this \$ syntax:

```
$background:#FF69B4$
```

# Another chapter

WOOT! THE TEXT IS ALL CAPS IN THIS CHAPTER.

GO DOWN TO THE NEXT SLIDE, YOU'LL SEE.

# CSS styles by chapter

EACH CHAPTER `<section>` ELEMENT HAS A  
SPECIFIC ID ATTRIBUTE:

```
<section id="chapter-foo">  
  ...  
</section>
```

YOU CAN USE IT TO SCOPE YOUR CSS STYLES!
